

## SEEDS

# Flax Seeds (Linseeds)

**ORIGIN** Madhya Pradesh · Rajasthan · Chhattisgarh

**SEASON** Year-Round

**CERTIFICATIONS** APEDA · FSSAI · GAP

## DESCRIPTION

India is one of the top global producers of flax seed (linseed). Central Indian states — Madhya Pradesh, Rajasthan, Chhattisgarh — produce both brown (standard) and golden (specialty) varieties at competitive export prices. The oil content of Indian flax is consistently high (38–42%), making it attractive both as a whole seed and for cold-press oil extraction.

## TRADE SPECIFICATIONS

<b>HS Code</b>	12040010 (Flax / Linseed)
<b>Botanical Name</b>	Linum usitatissimum L.
<b>Origin States</b>	Madhya Pradesh (primary), Rajasthan, Chhattisgarh, UP, Bihar
